DURAY® 2D

72 Months Warranty

Extraoral X-ray Series

The Duray® 2D is the latest addition to Beyes® gamma line of panoramic platforms, providing nine specialized panoramic programs, an integrated touchscreen, and convenient future proofing. In an era where remote upgrades hold growing significance, the Duray® 2D platform is intentionally designed for easy remote enhancement. Drawing from the well-established Duray® 3D platform in the market, the Duray® 2D introduces unmatched innovation to the world of panoramic imaging.

The most versatile 2D platform in our Extraoral gamma line has arrived: the Duray® 2D Ceph. With its exceptional panoramic and one-shot cephalometric capabilities, it can be effortlessly upgraded to 3D at any time. Elevate your clinic to a whole new level whenever you choose, and attain a comprehensive 3-in-1 solution by swiftly and easily adding the 3D module. Select your preferred ceph size-18x24cm or 30x24cm-and achieve outstanding images, all thanks to the state-of-the-art CSI-CMOS flat panel sensor.

Its elegant and compact design, smart backlight and touchscreen, automated sensor movement, and ergonomic patient positioning provide the ideal solution for modern clinics.

DURAY®
Intraoral Sensor

THE DIGITAL SOLUTION YOU ARE LOOKING FOR!

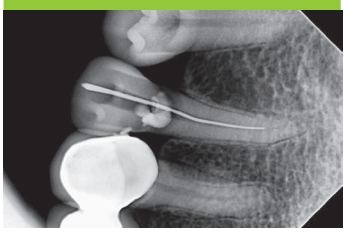
Ultra-Thin & Comfortable Design

With an ultra-thin 4.4mm portfolio and ergonomically designed with rounded corners, it is easier than ever to position for bitewing images and offers a maximum level of patient comfort.

Durable & Reliable Performance

Duray Sensor is waterproof with IP68 protection and can be immersed in disinfectant liquids to prevent cross infections. Made with premium materials and designed with robust CNC shell fusion ultrasonic welding technology and tested with thousands of bending experiments during production processes to ensure durability and a long product life cycle.

High-Resolution CMOS Imaging



The leading 16-bit ADC chip brings you up to 60000+ greyscale crystal clear images in seconds. A high-definition sensor of up to 2.2 million pixels provides a theoretical resolution of 25 lp/mm. Produces clear and detailed images with very good contrast and sharpness for diagnosis so that subtle root apex bifurcation can be easily found.

Effortless Plug-and-Play Setup

Duray Sensor provides easy-to-operate and straightforward software with one-click smart installation and offers plug-and-play simplicity with a high-speed USB 2.0 connection. Equipped with powerful image processing functions, so you can significantly and quickly improve the quality of radiographs.

Comfortek® X1

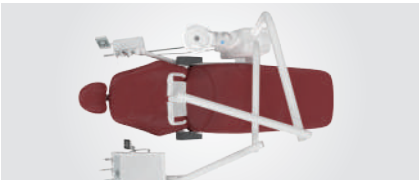
Dental Operating System

Originated from the design concept of German engineers and after more than 10 years of process improvement, the innovated Comfortek X1 has a robust structure and meets highest ergonomic and safety standards.

- Flexible control with high reliability.
- Comfortable to use and durable.
- Convenient for cleaning and disinfection. More hygienic.

Reliable & Durable
Comfortek X1 has a robust structure, the main frame is composed of cast aluminum and steel parts.

A Peace of Mind
Chair lock enables safe operation, avoid accident caused by unexpected movement of the chair position.



Flexible Control
The wide range swivel cuspidor bowl and assistant arm provide the biggest possible treatment space.

- Main switch for all (air, water and electricity)

- With double-articulated headrest and comfortable seat, height can be raised and lowered freely in the range from 380mm to 780mm.

- The smart LED light is pioneered to provide comfort on patient's eyes during treatment by avoiding direct light to their eyes.

- The control panels are perfect for seamless cooperation between the dentist and assistant.

- Full foot-control operation to avoid cross contamination, the seat can be adjusted handsfree.

- Intelligent doctor stool. Wheels will automatically lock into place when you stand up.

- With the air lock switch on the handle of the dentist element, the unit can be adjusted to optimal position with a mere press of a button.

- The removable suction filter kit and 360° rotatable water outlet make cleaning and disinfection easy and convenient.

- 8 years warranty

REVOLUTIONARY TECHNOLOGY MADE EASY!

Maxso® E800

Electric Handpiece System

25 Months Warranty on E800

Beyes® has made upgrading to the newest electric technology easy with the Maxso® E800. Equipped with a touch screen interface and 3 programmable preset speeds, this brushless electric micromotor system is designed with ultimate user-friendliness in mind. With customizable settings, the system is the perfect solution for all high-speed and low-speed applications. Its quiet motor delivers uncompromised power – featuring advanced rotational control technology, resulting in only the smoothest and steadiest operation. Integrate the Maxso® E800 into your practice with ease and start experiencing the advantages of electric today.

Benefits & Features:

- **Powerful:**
5.0 Ncm of torque
- **Steady Performance:**
Speed of rotations is controlled between 2,000 and 40,000min-1
- **Smooth Operation:**
Torque ripple and heat reduction technology eliminates vibrations
- **Convenient & Durable:**
Smooth and easy to clean surface with autoclavable brushless motor
- **3 Programmable Memory Settings:**
Easily switch between speed presets for more efficient workflow
- **New Touch Screen Interface:**
Easily and quickly navigate through menu settings on a color LCD display panel

"I've used a few intraoral cameras, but the Beyes Intraoral Cam stands out. The image quality is super clear, making it easy to show patients exactly what's going on with their teeth. It's lightweight, easy to use, and connects smoothly without any hassle. Definitely a game changer for patient education and documentation!"

Dr. Mark Lin

DURAY®

Imaging Plate Scanner

Duray Image Plate Scanner enables fast and efficient image processing with outstanding image quality in just seconds to meet diagnostic needs.

Say goodbye to the hazardous and costly traditional intraoral x-rays. Converting to digital imaging can be this simple.

- **Powerful Processing**
  With an 8-core CPU and developed with advanced 14 nm LPC FinFET process technology, FPGA as a coprocessor, brings superior processing that is smoother and faster for instant and reliable diagnoses.

- **Smart Design**
  The 7-inch large touch screen offers a resolution of 800 x 1280 pixels and features an intuitive operational design as a 1-click system from standby to scanning and image viewing. The resulting images are ultra-high resolution with clear details and excellent contrast.

- **Compact Tabletop Design**
  With a footprint of only 0.13 square meters, Duray imaging plate scanner is a powerful solution for clinics of all sizes. Its compact size allows it to be set up for direct use chairside for efficient workflow.

- **Comfortable**
  Choose from 4 plate sizes of 0-3 to select the best fit for your patient's needs. Phosphor plates are soft and flexible to assure patient comfort and re-usable a countless number of times to maximize your investment.

24 Months Warranty

DC X-Ray Unit

State of the art DC technology, finest focal spot of 0.4, and a wide range of preset exposure settings ensure excellent image quality and a low radiation dose for your patients. See all the details you need for precise diagnosis. The light, solid and stable arm assures smooth movement and reliable positioning.

Automatic DAP Display

The built-in Dose Area Product allows dose monitoring, thus supporting safety procedures and patient radiation protection. The dose can be shown with every exposure on the control panel display.

Rectangular Beam Limiting Device

Reduce the patient dose by using the optional rectangular beam limiting device available in film size 0 and 2.

Excellent Image Quality

Finest focal spot of 0.4, advanced DC technology and a wide range of preset exposure settings ensure excellent image quality with every exposure.

Remote Solution

The wall mount and timer can be installed separately allowing to control the exposure from outside the X-ray room. This solution ensures radiation safety as well as easy installation and integration into your dental practice.

MEGA V

Made in the USA

ZEST DENTAL SOLUTIONS®

Sectional Matrix System

MEGA V represents the innovation behind the converging tines technology and the superior clinical performance only a sectional matrix system can provide. The use of heat-treated stainless steel, ensures the intended force is delivered to separate the adjacent tooth, freeing the clinician to perform class II restorations, quickly and efficiently.

The MEGA V sectional matrix system offers a single ring size intended for molars and premolars, which can be stacked to achieve multiple restorations at one time.

Introducing
bulkEZ®
with IntelliTek® Curing Technology

The Optimal Bulk-Filling Solution for Restorative Procedures

- Bulk EZ® is an easy-to-place, dual-cure, bulk-fill composite that combines flowable cavity adaptation with high strength and wear resistance—all in one, simple step.
- Its self-cure, patent-pending IntelliTek® Technology is designed to specifically control and direct shrinkage while eliminating microleakage in all posterior restorations.
- Bulk EZ has reinvented bulk-fill composites by addressing the limitations that plague current products, such as gap formation and stress from rapid curing.

Amalgam Alloys

Available in 1 Spill, 2 Spill & 3 Spill - Regular & Fast Set - 500 packs & 50 packs

Spherodon - M

Admix Alloy, 45.5% Ag(Silver), High Copper, Non Gamma II

COMPARE TO **CONTOUR**

- Outstanding dimensional stability
- Improved marginal integrity
- More body
- Easy condensation versatility
- Reduced risk of fracture
- High corrosion resistance

Spherodon +

Spherical Alloy, 60% Ag (Silver), High Copper, Non Gamma II

COMPARE TO **TYTIN**

- 100% spherical particles
- Superb compressive & tensile strength
- Decreases micro leakage
- Easy handling and smooth carving
- Extra low mercury alloy ratio

Nogama

Disp. Phase Alloy, 69.5% Ag (Silver), High Copper, Non Gamma II

COMPARE TO **DISPERSALLOY**

- Increased strength of restored teeth
- Excellent durability
- Corrosion resistant
- Supreme marginal adaptability

Valid April 1 - June 31, 2025

Dia-X™ Bond UNIVERSAL
Single Component Universal Bonding Agent

[A2001-2201] Dia-X Bond Universal

- Versatile with all etching techniques
- All direct and indirect restorations
- Light-, self- & dual-cure compatible
- Virtually no post-op sensitivity
- Advanced 10-MDP monomer
- Convenient: true 1-bottle bond
- Uncompromising bond strength
- Stable at room temperature

Reg. $159.95 **Sale: $133.90**

D.LUX+
Wavelength Cordless Curing Light

[20050] D-Lux+ Regular Kit

Contains: D-Lux+ hp & charger, light probe, light protector, disposable sheaths (200/box),power supply (adapter)

- Powerful 2,400 mW/cm2 output
- Dual wavelength: 385 - 515 nm
- 360° swivel light probe
- 5 versatile curing modes
- Built-in light intensity sensor
- High capacity 2,600 mAH battery
- Wireless inductive charger

Reg. $1,650 **Sale: $1,590**

DiaFil Flow™
Light-Cured Flowable Composite

- Perfect adaptation and handling
- Excellent color adaptability
- Pit & fissure sealant
- Excellent tensile strength and low shrinkage
- Highly radiopaque
- Class III, IV and V direct restorations
- Base/Liner under posterior restorations in Class I, II

PeriAcryl® 90 High Viscosity

GluStitch Inc.

Benefits of PeriAcryl®90

PeriAcryl®90 forms a zone of inhibition against bacteria that can cause infection.
Using **PeriAcryl®90** helps stop bleeding and seals off wounds to reduce surgical time spent on achieving hemostasis or placing sutures.
PeriAcryl®90 is a strong and comfortable dressing compared to dental packing that can feel bulky and fall off too soon.

Characteristics of PeriAcryl®90
· Polymerizes rapidly in contact with water or moist oral tissue.
· Stays in place for up to 14 days when a multi-layer application is made.
· Dyed violet for increased visibility during application.
· Biocompatible and non-toxic

(20025) PeriAcryl 90, High Viscosity, Violet, W/Tray & 50 Pipettes

DENTA ADVISOR — CLINICAL PROBLEM SOLVER

Stop Needle-Stick Injuries

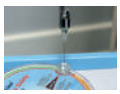
No worries, be Safe, be Smart.

Needle-Stick Safety System provides protection from single-use needles by covering the ends of the needles after use. Covering needles minimizes the risk of needle sticks during recapping, temporary storage or disposal.

- Spring-loaded
- Automatically advances to the next capsule after one is removed
- Capsules can be used with all needle lengths and gauges
- Easy to use
- CDC and OSHA compliant

(20200707)
Needle-Stick Safety System
1 device and 100 color-coded capsules

Very simple and easy to use



1. Place the needle tip in the funnel opening on top of the device.

2. Remove the syringe. A protective capsule will be covering the needle.

3. The system "automatically advances" to the next available capsule.
