DURAY® 2D NEW

Extraoral X-ray Series

The Duray® 2D is the latest addition to Beyes® gamma line of panoramic platforms, providing nine specialized panoramic programs, an integrated touchscreen, and convenient future proofing. In an era where remote upgrades hold growing significance, the Duray® 2D platform is intentionally designed for easy remote enhancement. Drawing from the well-established Duray® 3D platform in the market, the Duray® 2D introduces unmatched innovation to the world of panoramic imaging.

- **Smart Backlight**
- **Integrated Touchscreen**
- **Advanced Sensor**
- **New Dynamic and Automatic Image Focusing**
- **Warranty: 24 Months**

(14194) DURAY 2D

Reg. \$31,900 Introductory Special: \$28,990

Installation is subject to local regulations.

DURAY® 2D CEPH NEW

Extraoral X-ray Series

The most versatile 2D platform in our Extraoral gamma line has arrived: the Duray® 2D Ceph. With its exceptional panoramic and one-shot cephalometric capabilities, it can be effortlessly upgraded to 3D at any time. Elevate your clinic to a whole new level whenever you choose, and attain a comprehensive 3-in-1 solution by swiftly and easily adding the 3D module. Select your preferred ceph size - 18x24cm or 30x24cm - and achieve outstanding images, all thanks to the state-of-the-art CSI-CMOS flat panel sensor. Its elegant and compact design, smart backlight and touchscreen, automated sensor movement, and ergonomic patient positioning provide the ideal solution for modern clinics.

- **One Shot Ceph**
- **Advanced Sensor**
- **Smart Backlight**
- **Warranty: 24 Months**

(14195) DURAY 2D CEPH

Beyes⁺

NEW

DURAY[®] 3D & 3D CEPH Extraoral X-ray Series

Duray[®] 3D is a complete, compact, and fully upgradable 3D CBCT Panoramic and Cephalometric system. It covers a gamut of applications - such as endodontics, periodontology, surgery, implantology, and orthodontics - providing everything you need for your daily practice.

It's a flexible solution that can be upgraded to one-shot cephalometry any time.

1. 10x10 hd for a full mouth evaluation.
2. 5x6,5 hd small volume for endodontic and periodontic evaluations.
3. 7x6,5 volumes for local.
4. Evaluations of periodontal diseases or implants osteointegration checks.
5. Cross sections – evaluation of the cortical bone.
6. Example of multiple implant planning.
7. Examples of single and multiple implant planning.

- Touchscreen Next To Patient
- Quick Cephalometrics
- Instantly Upgradeable
- Automatic Metal Artifact Reduction (AMAR)
- Automatic Noise Reduction (ANR)
- Advanced Technology
- Mirroring
- Smart Backlight
- Safe & Easy
- Plug & Play
- Quick Positioning
- Warranty: 24 Months

(14193) DURAY 3D CEPH

Reg. \$91,350 **Introductory Special: \$89,995**

Installation is subject to local regulations.

Beyes®

DURAY®**Intraoral Sensor**

- THINNEST SENSOR 4.4**

With an ultra-thin 4.4mm portfolio and ergonomically designed with rounded corners, it is easier than ever to position for bitewing images and offers a maximum level of patient comfort.

- DURABLE AND RELIABLE**

Duray Sensor is waterproof with IP68 protection and can be immersed in disinfectant liquids to prevent cross infections. Made with premium materials and designed with robust CNC shell fusion ultrasonic welding technology and tested with thousands of bending experiments during production processes to ensure durability and a long product life cycle.

- HIGH RESOLUTION IMAGING**

The leading 16-bit ADC chip brings you up to 60000+ greyscale crystal clear images in seconds. A high-definition sensor of up to 2.2 million pixels provides a theoretical resolution of 25 lp/mm. Produces clear and detailed images with very good contrast and sharpness for diagnosis so that subtle root apex bifurcation can be easily found.

- EASY TO USE**

Duray Sensor provides easy-to-operate and straightforward software with one-click smart installation and offers plug-and-play simplicity with a high-speed USB 2.0 connection. Equipped with powerful image processing functions, so you can significantly and quickly improve the quality of radiographs.

- Warranty: 24 Months**

Duray Intraoral Sensor comes with a two-year replacement warranty against manufacturer defects.

We offer extended warranty and Duray Care Protection. Please contact us for full details.

Maxso® E800

Electric Handpiece System

Revolutionary technology made easy

Beyes® has made upgrading to the newest electric technology easy with the Maxso® E800. Equipped with a touch screen interface and 3 programmable preset speeds, this brushless electric micromotor system is designed with ultimate user-friendliness in mind. With customizable settings, the system is the perfect solution for all high-speed and low-speed applications. Its quiet motor delivers uncompromised power – featuring advanced rotational control technology, resulting in only the smoothest and steadiest operation. Integrate the Maxso® E800 into your practice with ease and start experiencing the advantages of electric today.

Benefits & Features:

- **Powerful:** 5.0 Ncm of torque
- **Steady Performance:** Speed of rotations is controlled between 2,000 and 40,000min-1
- **Smooth Operation:** Torque ripple and heat reduction technology eliminates vibrations
- **Convenient & Durable:** Smooth and easy to clean surface with autoclavable brushless motor
- **3 Programmable Memory Settings:** Easily switch between speed presets for more efficient workflow
- **New Touch Screen Interface:** Easily and quickly navigate through menu settings on a color LCD display panel

LUBRICARE MAINTENANCE SYSTEM

SIMPLIFIED MAINTENANCE

Quick, simple and economic - this perfectly sums up the Lubricare maintenance device, when used with Bien-Air's Spraynet and Lubrifluid products, with each spray specifically designed for a phase in the maintenance cycle: Spraynet, for dissolving impurities and cleaning the instrument both inside and out, and Lubrifluid, for effective lubrication of instruments. Lubricare and Bien-Air maintenance sprays support the daily use of your instruments, guaranteeing impeccable maintenance, optimal operation and an extended service life.

DURAY®

Imaging Plate Scanner

Duray Image Plate Scanner enables fast and efficient image processing with outstanding image quality in just seconds to meet diagnostic needs.

Say goodbye to the hazardous and costly traditional intraoral x-rays. Converting to digital imaging can be this simple.

- POWERFUL PROCESSING**

With an 8-core CPU and developed with advanced 14 nm LPC FinFET process technology, FPGA as a coprocessor, brings superior processing that is smoother and faster for instant and reliable diagnoses.

- SMART DESIGN**

The 7-inch large touch screen offers a resolution of 800 x 1280 pixels and features an intuitive operational design as a 1-click system from standby to scanning and image viewing. The resulting images are ultra-high resolution with clear details and excellent contrast.

- COMPACT TABLETOP DESIGN**

With a footprint of only 0.13 square meters, Duray imaging plate scanner is a powerful solution for clinics of all sizes. Its compact size allows it to be set up for direct use chairside for efficient workflow.

- COMFORTABLE**

Choose from 4 plate sizes of 0-3 to select the best fit for your patient's needs. Phosphor plates are soft and flexible to assure patient comfort and re-usable a countless number of times to maximize your investment.

- Warranty:** 24 Months

DURAY® V2 DC X-Ray Unit

State of the art DC technology, finest focal spot of 0.4, and a wide range of preset exposure settings ensure excellent image quality and a low radiation dose for your patients. See all the details you need for precise diagnosis. The light, solid and stable arm assures smooth movement and reliable positioning.

- **Excellent image quality:** Finest focal spot of 0.4, advanced DC technology and a wide range of preset exposure settings ensure excellent image quality with every exposure.
- **Remote solution:** The wall mount and timer can be installed separately allowing to control the exposure from outside the X-ray room. This solution ensures radiation safety as well as easy installation and integration into your dental practice.
- **Automatic DAP display:** The built-in Dose Area Product allows dose monitoring, thus supporting safety procedures and patient radiation protection. The dose can be shown with every exposure on the control panel display.
- **Rectangular beam limiting device:** Reduce the patient dose by using the optional rectangular beam limiting device available in film size 0 and 2.
- **Warranty:** 24 Months

Beyes

DuraMax® Extraoral Suction System

Removes contaminants produced during dental procedures including droplets, aerosols, blood, dust, and virus and uses the most advanced Quattro layer filtration system to kill viruses and bacteria absorbed with over 99.9% efficiency.

During treatments, a high volume of droplets and aerosols are produced by high-speed handpieces, ultrasonic scalars, and air water syringe that can linger in the air for up to two hours. This places practitioners and office staff health at risk of infections.

Efficient Filtration

(19983) DuraMax X1

bulkeZ PLUS
Dual-Cure Bulk-Fill Composite

The game-changing dual-cure bulk fill composite just got even better, letting you do even more in less time!

Unlimited cure depth, no microleakage,

bulkeZ PLUS does even more!

Utilizing the same Intellitek Technology for unlimited cure depth and microleakage prevention as the original, Bulk EZ PLUS now incorporates state of the art 80 nm spherical zirconia fillers, enhancing the esthetics with better shade-matching and polishability, and ensuring greater wear resistance. Handling has also been fine tuned to allow for a wider variety of cases, allowing you to do more in less time. Bulk EZ PLUS offers results unlike any other composite from top to bottom!

PeriAcryl® 90 High Viscosity

Benefits of PeriAcryl®90

PeriAcryl®90 forms a zone of inhibition against bacteria that can cause infection.

Using **PeriAcryl®90** helps stop bleeding and seals off wounds to reduce surgical time spent on achieving hemostasis or placing sutures. **PeriAcryl®90** is a strong and comfortable dressing compared to dental packing that can feel bulky and fall off too soon.

Characteristics of PeriAcryl®90

- Polymerizes rapidly in contact with water or moist oral tissue.
- Stays in place for up to 14 days when a multi-layer application is made.
- Dyed violet for increased visibility during application.
- Biocompatible and non-toxic

Ora Aid Attachable Intraoral Wound Dressing

- Protects oral wounds from food and cigarette smoke
- Non-eugenol protective dressing material applied to intraoral wounds
- Aids in hemostasis
- Protects suture thread from tongue irritation
- Strong adhesion using hydrophilic polymer
- Safe and easy to use. Easy to cut into different shapes/sizes
- Self adhesive with saliva
- Reduces irritation sore in mouth
- Mint flavour reduces halitosis
- Each pack contains 20 pieces

Stop Needle-Stick Injuries No worries, be Safe, be Smart.

Needle-Stick Safety System provides protection from single-use needles by covering the ends of the needles after use. Covering needles minimizes the risk of needle sticks during recapping, temporary storage or disposal.

- Spring-loaded
- Automatically advances to the next capsule after one is removed
- Capsules can be used with all needle lengths and gauges
- Easy to use
- CDC and OSHA compliant

(20200707)

Needle-Stick Safety System
1 device and 100 color-coded capsules

Very simple and easy to use

1. Place the needle tip in the funnel opening on top of the device.

2. Remove the syringe. A protective capsule will be covering the needle.

3. The system "automatically" advances to the next available capsule.
