**Benefits of PeriAcryl® 90**

PeriAcryl® 90 forms a zone of inhibition against bacteria that can cause infection. Using PeriAcryl® 90 helps stop bleeding and seals off wounds to reduce surgical time spent on achieving hemostasis or placing sutures. **Characteristics of PeriAcryl® 90**

- Polymerizes rapidly in contact with water or moist oral tissue.
- Stays in place for up to 14 days when a multi-layer application is made.
- Dyed violet for increased visibility during application.
