AirView™ II Bowie-Dick Test Pack

Easy-to-interpret indicator; smaller size reduces waste; does not contain lead.

- (19169) 30/case

Reg. \$269.99

Sure-Check™ Self-Seal Sterilization Pouches

Built-in multi-parameter internal/external process indicators that change color when all three criteria for sterilization have been met – time, temperature and pressure (steam).

Manufactured from medical grade paper with extra-wide chevron to protect against instrument breaching, thumb-notch for easy opening, 6 corner tack seals to prevent curling and other potential contaminants from entering pouch upon opening and a perforated fold to help ensure the adhesive strip forms an airtight seal.

GluStitch* PeriAcryl 90 High Viscosity

PeriAcryl® 90 forms a zone of inhibition against bacteria that can cause infection.

Using **PeriAcryl® 90** helps stop bleeding and seals off wounds to reduce surgical time spent on achieving hemostasis or placing sutures.

PeriAcryl® 90 is a strong and comfortable dressing compared to dental packing that can feel bulky and fall off too soon.

Characteristics of PeriAcryl® 90

- Polymerizes rapidly in contact with water or moist oral tissue.
- Stays in place for up to 14 days when a multi-layer application is made.
- Dyed violet for increased visibility during application.
- Biocompatible and non-toxic

LUBRICARE MAINTENANCE SYSTEM

SIMPLIFIED MAINTENANCE

Quick, simple and economic - this perfectly sums up the Lubricare maintenance device, when used with Bien-Air's Spraynet and Lubrifluid products, with each spray specifically designed for a phase in the maintenance cycle: Spraynet, for dissolving impurities and cleaning the instrument both inside and out, and Lubrifluid, for effective lubrication of instruments. Lubricare and Bien-Air maintenance sprays support the daily use of your instruments, guaranteeing impeccable maintenance, optimal operation and an extended service life.

Elite Series Ultra Clean Oilless Compressor

This compressor system provides the advantages of proven technology, durable construction, quiet operation, and oil-free performance with the latest in energy-saving features. This is important to you as an environmentally responsible business owner.

Code	Users	Reg.	Sale
(14520)	2-3	\$13,700	\$11,599
(14525)	5-7	\$20,960	\$17,699

Goldenvac Stainless Steel Vacuum Pump

The Tech West GoldenVac delivers reliable performance and long-term durability. Its stainless steel impeller provides up to 20% improved performance and resists wear from air abrasion, ceramic particles, and hard water. Thermally protected motors help reduce energy consumption, while flexible single, dual, and triple configurations meet various practice needs.

- Investment cast stainless steel impeller and stainless steel housing with stainless steel base plate and manifold.
- Maximum durability to prevent wear from air abrasion and ceramic particles or hard water conditions.

Code	Users	Reg.	Sale
(14511)	3	\$6,410	\$5,399

Tech-West's Exclusive Warranty:

- 10 years on all stainless steel components
- 5 years on the motor shaft
- 3 years on all other components

Elite Series Rocky Compressors

Built for smaller practices needing reliable air for 2-3 users, the Rocky Compressors deliver 100% clean, dry air in a compact, whisper-quiet design thanks to durable rocking-piston motors. Each motor can operate independently —so even if one goes down, your practice doesn't stop. Unlike membrane-style dryers that struggle to reliably achieve ultra-low dew points, desiccant-drying tanks reach -40 °F (and often lower), providing far better protection for your equipment and fewer surprises.

- Delivers 100% Clean, Dry Air
- Flexible Power Options
- Oilless, Low-Maintenance Operation
- Quiet, Vibration-Free Performance
- Compact, Small Footprint
- Built for Durability & Fast Pressure Build
- Dependable Redundancy

“

I've used a few intraoral cameras, but the Beyes Intraoral Cam stands out. The image quality is super clear, making it easy to show patients exactly what's going on with their teeth. It's lightweight, easy to use, and connects smoothly without any hassle. Definitely a game changer for patient education and documentation!

DURAY®

Imaging Plate Scanner

Duray Image Plate Scanner enables fast and efficient image processing with outstanding image quality in just seconds to meet diagnostic needs.

Say goodbye to the hazardous and costly traditional intraoral x-rays. Converting to digital imaging can be this simple.

Powerful Processing

With an 8-core CPU and developed with advanced 14 nm LPC FinFET process technology, FPGA as a coprocessor, brings superior processing that is smoother and faster for instant and reliable diagnoses.

Smart Design

The 7-inch large touch screen offers a resolution of 800 x 1280 pixels and features an intuitive operational design as a 1-click system from standby to scanning and image viewing. The resulting images are ultra-high resolution with clear details and excellent contrast.

Compact Tabletop Design

With a footprint of only 0.13 square meters, Duray imaging plate scanner is a powerful solution for clinics of all sizes. Its compact size allows it to be set up for direct use chairside for efficient workflow.

Comfortable

Choose from 4 plate sizes of 0-3 to select the best fit for your patient's needs. Phosphor plates are soft and flexible to assure patient comfort and re-usable a countless number of times to maximize your investment.

DURAY[®]

Intraoral Sensor

**THE DIGITAL SOLUTION
YOU ARE LOOKING FOR!**

Ultra-Thin & Comfortable Design

With an ultra-thin 4.4mm portfolio and ergonomically designed with rounded corners, it is easier than ever to position for bitewing images and offers a maximum level of patient comfort.

Durable & Reliable Performance

Duray Sensor is waterproof with IP68 protection and can be immersed in disinfectant liquids to prevent cross infections. Made with premium materials and designed with robust CNC shell fusion ultrasonic welding technology and tested with thousands of bending experiments during production processes to ensure durability and a long product life cycle.

High-Resolution CMOS Imaging

The leading 16-bit ADC chip brings you up to 60000+ greyscale crystal clear images in seconds. A high-definition sensor of up to 2.2 million pixels provides a theoretical resolution of 25 lp/mm. Produces clear and detailed images with very good contrast and sharpness for diagnosis so that subtle root apex bifurcation can be easily found.

Effortless Plug-and-Play Setup

Duray Sensor provides easy-to-operate and straightforward software with one-click smart installation and offers plug-and-play simplicity with a high-speed USB 2.0 connection. Equipped with powerful image processing functions, so you can significantly and quickly improve the quality of radiographs.

DURAY® 2D

Extraoral X-ray Series

The Duray® 2D is the latest addition to Beyes® gamma line of panoramic platforms, providing nine specialized panoramic programs, an integrated touchscreen, and convenient future proofing. In an era where remote upgrades hold growing significance, the Duray® 2D platform is intentionally designed for easy remote enhancement. Drawing from the well-established Duray® 3D platform in the market, the Duray® 2D introduces unmatched innovation to the world of panoramic imaging.

The most versatile 2D platform in our Extraoral gamma line has arrived: the Duray® 2D Ceph. With its exceptional panoramic and one-shot cephalometric capabilities, it can be effortlessly upgraded to 3D at any time. Elevate your clinic to a whole new level whenever you choose, and attain a comprehensive 3-in-1 solution by swiftly and easily adding the 3D module. Select your preferred ceph size - 18x24cm or 30x24cm - and achieve outstanding images, all thanks to the state-of-the-art CSI-CMOS flat panel sensor.

Its elegant and compact design, smart backlight and touchscreen, automated sensor movement, and ergonomic patient positioning provide the ideal solution for modern clinics.
